

M^cArthur Community Care

There's one reason why our clients come to M^cArthur for their **disability staffing and support needs...**

Spinal cord injury • Acquired brain injury •
Physical and neurological disabilities including
sensory and intellectual disabilities.

...trust.

One of the most recognised and respected names in the industry, M^cArthur has been providing recruitment solutions to the South Australian healthcare and community sectors for over 40 years.

Clients and candidates trust our experience, and have the peace of mind knowing that we understand their specific needs, challenges and both their healthcare and lifestyle objectives.

We also provide a broad range of healthcare training solutions and innovative Management Consultancy programs aimed at making sure our clients get the best service possible.

And whilst we have gone through major change and growth over the last 40 years, one thing will always remain constant...

'...our uncompromised commitment to providing the highest quality of services to all people within the community.'

And nowhere is this more evident than within our **specialist Community Care division.**

Unparalleled experience and specialist focus on staffing and support for the Disability sector.

M^cArthur Community Care provides specialist recruitment and care support services to both individuals under the CDC guidelines and community-based care organisations.

We provide personal care and support services for adults with:

- Spinal Cord injury
- Acquired Brain Injury (ABI)
- Physical impairment/mobility issues
- Frederick's Ataxia
- Multiple Sclerosis (MS)
- Motor Neurone Disease (MND)
- Stroke
- Cerebral Palsy
- Down Syndrome
- Sensory and hearing impairment
- Intellectual disabilities

Carer support

If you are a Carer of a person with a disability, we can support you. This can include help with future/short-term planning, service co-ordination, practical house help or simply giving you the time to take a short break from your caring role. We offer short-term or longer term support based on your needs.

A commitment to minimising risk and maximising quality of service.

All M^cArthur Disability Care professionals require a stringent 30 point quality check and a minimum of six months Disability Care industry experience.

We also psychometrically profile all our candidates to ensure risk is minimised and they are the ideal match – both personally and professionally – for our clients' needs.

We also deliver a range of highly informed and relevant training options that help increase staff performance, improve worksafe practices and reduce recruitment costs. These include:

- Person centred care
- Managing specific challenges
- Mental health first aid
- Effective communication
- Professional boundaries

Over 70 years' specialist care experience and client-centric focus.

The M^cArthur Community Care team combine over 70 years' professional experience totally focused on the Care industry. No team has a better understanding of the sector's unique challenges, or individual client needs and aspirations.

Andrea Leniger Sherratt

Director of M^cArthur Community Care

With over 30 years' experience in the South Australian care sector, Andrea brings a wealth of insight, expertise and passion to her role as Director of M^cArthur Community Care. Andrea has worked closely with numerous funding bodies, providing support whilst maintaining the highest standard of care to clients and their significant others that reside within the community and wish to remain as independent as possible.

Andrea's focus remains on suitably matching support workers and clients in all aspects of daily living. I believe success comes to those who connect, listen and are available during difficult times.

Andrea holds a Post Graduate Degree in Grief, Loss and Palliative Care Counselling from the University of Adelaide.

Joanne Basso Senior Consultant

After graduating from the University of Adelaide, Joanne worked at the University of South Australia in various roles. After a short break, to have her first child, Joanne resumed her career as a Booking Consultant with various nursing agencies. In 2005 Joanne bought into a nursing agency as Owner/Director and worked across all facets of the business. After selling the business in 2013, she then became the Joint Operations Manager and set up the Training Division before resigning in April 2015.

Joanne has a Bachelor of Arts with a Double Major in Psychology and Political Science, an Honours Degree in Political Science, a Graduate Diploma in Business and a Graduate Diploma in Arts.

Anne Norris Senior Consultant

After her Nursing training at the Adelaide Women's and Children's Hospital in 1986, Anne worked in the medical unit of the hospital until 1990. She then worked at the University of South Australia's Student Association until 1994, where she established and managed the Student Employment Service. After a year's break, to have her first child, Anne joined our team to work nursing shifts at the Women's and Children's Hospital in paediatrics.

She worked for various nursing agencies as a casual Booking Consultant and in 2004 opened her own agency. After the sale, she became Joint Operations Manager until April 2015.

In 2011 Anne completed her Nursing re-entry program at the Royal Adelaide Hospital and in 2014 completed her Certificate IV in Training and Assessment.
